AMENDMENT

In response to the Office Action dated 12/13/02, please amend the above-identified application by replacing the claims as shown below. The computer red-lined version of the changes made to these claims are attached for your review.

IN THE SPECIFICATION

Please replace the paragraph beginning at page 6, line 1, with the following rewritten paragraph:

B¹
--In keeping with the teaching of the above captioned parent application, a dopant barrier 112 may be used to prevent p-type dopants from diffusing out of the p-type layer 101 and into the active layer 102. Dopant barrier 112 may be as set forth in the parent application. Alternatively, dopant barrier 112 may be aluminum spikes or aluminum containing spikes as set forth in U.S. Patent Application 09/540,474 filed March 31, 2000. This application is assigned to the assignee of the present invention, and its disclosure is specifically incorporated by reference herein.--
